

EAST COAST

BY MICHAEL PRACHT

Take a trip with me
To the east coast and
Let's leave your mother behind
She always gets in the
Way with me when I
When I just want to get you inside

You know that I love you baby
And right now you drive me crazy

We'll have a good time
If you just try
Just try to leave your mother behind
She never liked me
She never wanted me to
Never wanted me to love you like somebody should

You know that I love you baby
But right now you drive me crazy

Just don't tell me that you've
Got nowhere to turn to
The car is waiting outside
Come on, jump inside and let's go

Omaha...
We get a call
We can't be too far from home

Minnesota, South Dakota...
Why won't she leave us alone?

Chicago, Pittsburg PA...
You start to wonder why you ever ran away

And I'm so tired that I can't stay awake
